

ERSTE Group

Achieving FRTB Compliance on Time and Under Budget

Situation

- Erste Group Bank AG, Austria's leading financial institution, needed to comply with FRTB requirements, which demanded advanced data analysis capabilities and seamless integration with existing systems.
- They evaluated various solutions and selected ActiveViam's Atoti FRTB due to its scalability, integration capabilities with Calypso and Kondor+, and positive past experience being an ActiveViam client.
- Erste Group opted for Atoti FRTB for its comprehensive package and quick deployment.

Benefits

Leveraging Atoti for FRTB provided Erste Group with three main benefits:

Met FRTB requirements in a fast and cost-efficient manner

Made the day-to-day market risk management significantly **faster and more precise**

Integrated seamlessly within Erste's infrastructure and even enabled them to **reduce their hardware costs**

End Result

ActiveViam delivered a seamless end-to-end integration and state-of-the-art technology.

Atoti FRTB saved us a lot of time and resources from the bank's internal development teams. ActiveViam offered end-to-end deliveries from the beginning.

Marcos Heerd, Head of Trading Book Risk Analytics at **Erste Group**
